

**Curis Functional Health** is an **Integrated Wellness Center**. What does Integrated mean? It means Doctors of Chiropractic, Mental Health Professionals & Dietitians / Nutritionists all working together to provide a greater spectrum of services. This model allows you the convenience of a multi-disciplinary approach without the headache of juggling multiple doctors at multiple locations on multiple schedules. You shouldn't have to put off dealing with one problem while you deal with another. You deserve quick, concise, expert patient care for all of your needs, and you deserve all of those experts working together to know what each other are doing for you and why.
